Delivered by KESAB environmental solutions, in partnership with Council as part of our commitment to reduce waste to landfill and promote recycling.

WASTE & RECYCLING KERBSIDE COLLECTION UPDATE

Veolia Environmental Services have added to their fleet two new state of the art trucks with improved safety features and are also equipped with cameras to record location, times of collection and bin content.

The new technology will assist drivers to identify materials placed in kerbside collection bins that are non-compliant and also supports the ongoing education of better disposal practices in line with Council's effort to reduce bin contamination and recyclable materials ending up in landfill.

The public are reminded to place their bins kerbside the night before or by 6am on the scheduled collection day to ensure the bins are collected. If you are unsure of what items to place into your kerbside bins, resources are available to assist you at www.portlincoln.sa.gov.au/recycle or you can contact the Council office for assistance.

Best of luck to District Council of Kimba, hosts of the 82nd Annual EPLGA Conference on 25 & 26 February
