1. INTRODUCTION

Section 131 of the Liquor Licensing Act 1997 provides for the prohibition of the consumption or possession of liquor in a specified public place, or a public place of a specified kind (the dry zone legislation). The prohibition may be absolute or conditional and may operate continuously or at specified times.

The purpose of the dry zone legislation is to curb alcohol related problems including anti-social behaviour in public areas such as reserves, main shopping precincts, car parks and foreshores. Dry zone notices may be displayed to delineate specific areas set aside for family enjoyment and recreation, free from intimidation or disturbance from persons affected by alcohol.

A dry zone within the City of Port Lincoln was declared by a notice published in the Liquor Licensing (Dry Areas) Regulations 2012. On 5 January 2015 all existing dry zones State-wide previously declared by these Regulations were transferred to a single gazette notice and the Regulations were repealed.

The area within the City of Port Lincoln affected by the dry zone is set out in the map attached to this policy and applies to publicly owned land only.

Within the declared area the consumption and possession of liquor is a continuous prohibition except for authorised events. These events are exempt from the dry zone prohibition when authorised by the City of Port Lincoln, where:

- (a) the event held within the area is of historic, cultural, traditional or major community significance or *showcases local and/or regional produce and culture* or promotes tourism; and

- (b) the consumption and possession of liquor within the area (or a defined portion of the area) are authorised for a specified period during the event by the City of Port Lincoln.

The current scope and number of exemptions from the dry zone prohibitions may be amended by an application from the City of Port Lincoln to the Office of Consumer and Business Services. This would require a lead time of at least 6 months to enable community consultation and a minimum of a further 4 months for the Office of Consumer and Business Services to consider the proposal.

An Exemption from the dry zone prohibitions authorised by Council does not preclude the holder from obligations under the Liquor Licensing Act 1997 to obtain a liquor licence for an event or activities associated with the event.

2. PURPOSE

The objective of this policy is to define:

- the criteria to be considered by Council when considering authorisation of an exemption from the dry zone prohibition in accordance with the exceptions noted above; and
- the information required to be provided as part of an application for exemption from the dry zone prohibition.

3. GUIDING CRITERIA FOR AUTHORISATION OF EXEMPTION FROM THE DRY ZONE PROHIBITIONS

3.1. The following criteria will be applied in Council's consideration of applications for authorisation of a dry zone exemption:

- 3.1.1 The event should showcase local and/or regional produce and culture with the aim of involving the community and encouraging future economic development.
- 3.1.2 Alcohol related sponsorship details should be confined to promotional materials and activities related to licensed premises within the event. (NOTE: an "event" means the overarching event; "activities" means mini-events held within the boundaries (physical or otherwise) of the event.)
- 3.1.3 Event management arrangements must demonstrate responsible management of consumption and possession of alcohol within the designated area.
- 3.1.4 Family friendly events are preferred, with community safety as a high priority.
- 3.1.5 Events will include food or entertainment as options to the consumption of alcohol.
- 3.1.6 Compliance with Council By-laws, relevant Policies and legislation.
- 3.1.7 Authorisation of a Dry Zone Exemption is subject to the granting of a Liquor Licence under the Liquor Licensing Act 1997. Where a Liquor Licence is not obtained, the exemption where authorised, will be automatically revoked.
